

FCC,
Please DO NOT allow cell phones on aircraft.
As a Flight Attendant it is hard to police
all the fights and arguments now over noise
from computers, movies and music. NOTHING
could be more annoying than listening to
100+ people trying to out voice each other.

There is NO PROOF that cell phones do not interfere
with navigational instruments.

And finally....can you just imagine terrorist sitting
on board talking to one another planning and carrying out
the next plots to use aircraft as a weapon.

Please DO NOT allow cell phone use on aircraft.

Thank You for your time.

Don Garner
Flight Attendant
Alaska Airlines
